Re: Ernst Bergen

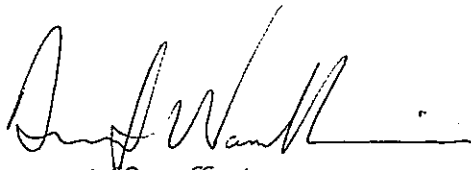

June 23rd, 2017

I have been very fortunate to have worked with Ernst Bergen on 2 separate Engineering projects over several months in 2015/2016.

I found Ernst to be extremely knowledgeable and very professional in his handling of both projects.

I have no reservation in recommending Ernst, he would be an excellent addition to any organization.

Should further information be required, please feel free to call me to discuss.
