To Whom It May Concern:

I have had the pleasure and privilege of knowing Ernst Bergen for over seven years. I was approached by Ernst to manufacture some parts for a project that he designed, I was very impressed with the perfection of his technical drawings, and the clarity of his explanations left me with no questions as to what I am to do.

Over the years I have used Ernst's expertise as an Engineer in several projects and designs for my biggest customers who are very impressed with the work and continue placing orders with me for the same designs.

Ernst is intelligent, motivated, dedicated, disciplined and great to work with; it's easy to see that he loves his profession and given a project puts not only his expertise but also his heart into it. He will be a great asset to your company and with his resourcefulness and determination, and will help you drive your business forward. I only wish I had the means to employ Mr. Bergen full time.

Sincerely,

Greg Bielecki

Vice President-owner
